
AMERICAVIEW PROGRAM ANNOUNCEMENT – NO. 10-001

TO: AMERICAVIEW AWARD RECIPIENTS
FROM: RICK LANDENBERGER; EXECUTIVE DIRECTOR
SUBJECT: OVERHEAD RECOVERY COST POLICY
DATE: JUNE 5TH, 2010
CC: AV BOARD OF DIRECTORS; PROGRAM MANAGER; USGS PROGRAM OFFICER

Dear AmericaView Award Recipient:

The purpose of this Program Announcement is to provide a concise statement of AmericaView's policy regarding Indirect Cost Rates (also known as the "overhead rate" or Facilities and Administration (F&A) rate) for subawards issued to StateView institutions.

Effective July 1, 2006, pursuant to Program Announcement 06-010, the maximum allowable overhead recovery is 15%.

The rate change is applicable to all new awards (Requests For Assistance, or RFA's) and Requests for Continued Assistance (RCA's) issued on or after July 1, 2006. Consistent with current overhead recovery policies and award agreement terms, the maximum overhead requirement will apply both to the award issued to the Recipient's institution and to any subcontracts that are issued by the institution in the performance of the award.

The rate change was made by the AV Board of Directors in response to constraints in federal funding and resulting cost-reduction mandates from the federal agency that funds AmericaView.

Regards,

A handwritten signature in black ink, appearing to read "Rick Landenberger".

Rick Landenberger
AmericaView Executive Director
